*Bolded items in the schedule are explained in more detail below

Open Classroom: Students may choose from self-directed projects at any area in the classroom or student or teacher led options. Options may include: painting, drawing, reading, building or table games.

Moving Mornings: All students will choose from a number of moving options like Aerobics/Line Dancing, Musical Jump Ropes & Hula Hoops, Skill Building with Jackson, "Walkabout" on the big field or dance party.

Game Time: This gives children an opportunity to explore new or classic games in more detail with smaller groups.

Games may include... Jackson's games, Uno, Yahtzee, Monopoly, Qwirkle, Skip Bo, Chess, Charades, Bohnanza, etc.

Projects: Project choices are listed on the "Weeks of Summer" calendars. See the other side of this sheet for specific information about scheduled projects and age group. Activities are opportunities for learning scaled to be age-appropriate, include elements of SPS academic standards and are flexible enough for individual creativity and expression.

Jackson's Games: Games are listed for each day on his separate schedule. There will also be a time slot at the end of the day for a game students choose themselves. They will use various approaches designed to build skills and expand understanding of rule concepts and applications.

Water Time: Any student may choose to join the outside fun with water when it's offered according to Jackson's schedule. We are asking that any child participating in water play come to BT in a swimsuit or "wet" clothes. They should also bring a towel. Curriculum can vary with sprinklers, slip-n-slides or water balloons, etc. Check "Jackson's Schedule" for more information.

Raccoon Reading/Badger Independent Study: This is our time to focus on literacy. Students may choose from personal reading, buddy reading, listening to a teacher read or personal journals.

Learning Games: Students won't know they're combating summer learning loss while playing engaging and fun games that also have a math skill and/or other learning component.

Rest & Recharge: This is a time for kids to calm their minds and bodies. Summer days are long and it's a good chance for everyone to recharge and finish out the day.
